BrainTree engaged NZ Toner as their office furniture partner to work alongside Frobishers as their interior design team. The brief for NZ Toner was to come up with suitable office furniture solutions for a first of its kind multipurpose wellness centre for brain health. The Wilson & Hill architecturally designed BrainTree centre has a mix of tenant, public and shared spaces...

The brand-new office building to furnish was quite an overwhelming prospect for NZ Toner, especially knowing the spaces will be used by people with a variety of special requirements and disabilities. It was imperative to get the layout correct to meet all the differing needs. Braintree worked closely with NZ Toner Office Supplies and Frobisher Design Team to put together a floor plan and colour palate for the new office space.

Thankfully being able to see 3D layout in advance allayed any concerns and enabled BrainTree to achieve a great workspace solution, which now looks fantastic for each of the main tenants (Multiple Sclerosis & Parkinson's, Dementia Canterbury, Stroke Foundation and Aspire Canterbury) and others still planning to come to BrainTree, all of whom are under the same roof. What we saw in the 3D layout is what we ended up with. The visuals and the trial furniture gave us a realistic view of how our brief for a natural look would be.

Susan, Lee and the NZ Toner team were able to oversee the project from the start with presentation, quoting, ordering. Once decisions had been made to purchase, they were able to hold the furniture and fit out until required onsite which was a great help to BrainTree. When it came to installing the furniture onsite the NZ Toner team worked hard, mostly outside of normal hours to get the new furniture ready asap which we at BrainTree really appreciated. Their project management from Susan and Lee was superb including: pre-planning and communication, meeting delivery on site, unpacking, assembly, cleaning up the site and following through with any questions.

Phil and the BrainTree team enjoyed working with the whole NZ Toner team and would not hesitate to work with them again in the future and to recommend their services and solutions. The people who now work onsite at BrainTree love their new office furniture, which is not only elegant but very functional, ergonomic and flexible to use. Thank you very much for your wonderful support to BrainTree.
